

Crafting fashion with human stories by Solid Crafts

We make your knitwear

Not just any knitwear, but knitwear of the highest quality that is:

- 100% hand knitted
- 100% alpaca (or mohair, wool, blends, ...), super soft and anti-allergenic, perfect for heavy chunky winter knits as well as light summer knitwear
- Made ethically, honestly and fairly
- Sustainable and eco friendly

Besides having all these qualities, the hand knitting also provides disadvantaged women in Ayacucho, Peru and their families with chances for the future. These women are incredibly talented and have a 'you name it, we make it' way of working.

And what's even more, you are spared the logistical headaches thanks to a flexible, rapid and 24/7 responsive service team located in Belgium. Amazing, right?

LET'S RISE BY LIFTING OTHERS!

The following pictures give you an idea about **customized production fairly handmade** in our knitting workshop in Ayacucho, Peru.

As such, you have already a first idea of some tailor-made pieces made with love by our **knitting moms**.

Let yourself **be inspired** by the possibilities and let us know **your creative designs**.

You name it, we make it.

clothes

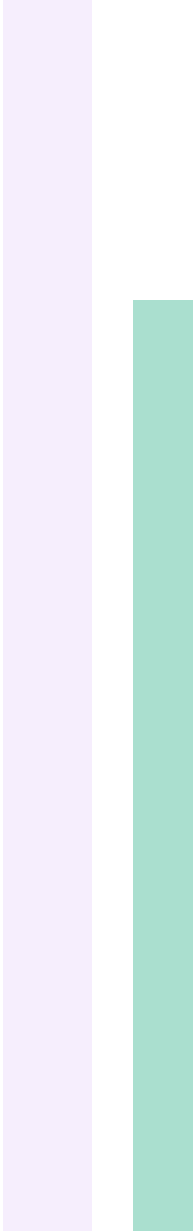

HOW IT'S MADE, MATTERS!

Fair

We create safe work conditions with fair wages and equal opportunities. Creating a positive impact on the world is what we strive for, always!

Eco and sustainable

Your fashion garment is made entirely of sustainable, environmentally friendly and animal-friendly materials.

Setting the standard

For ethical and aesthetical production.
Not charity; fair work.

The workshops of Solid in Peru, India and Kenia create fair work for disadvantaged women. They get the opportunity to master a skill in their job, and become a top artisan. By earning a fair wage, they can escape the poverty cycle and become more independent.

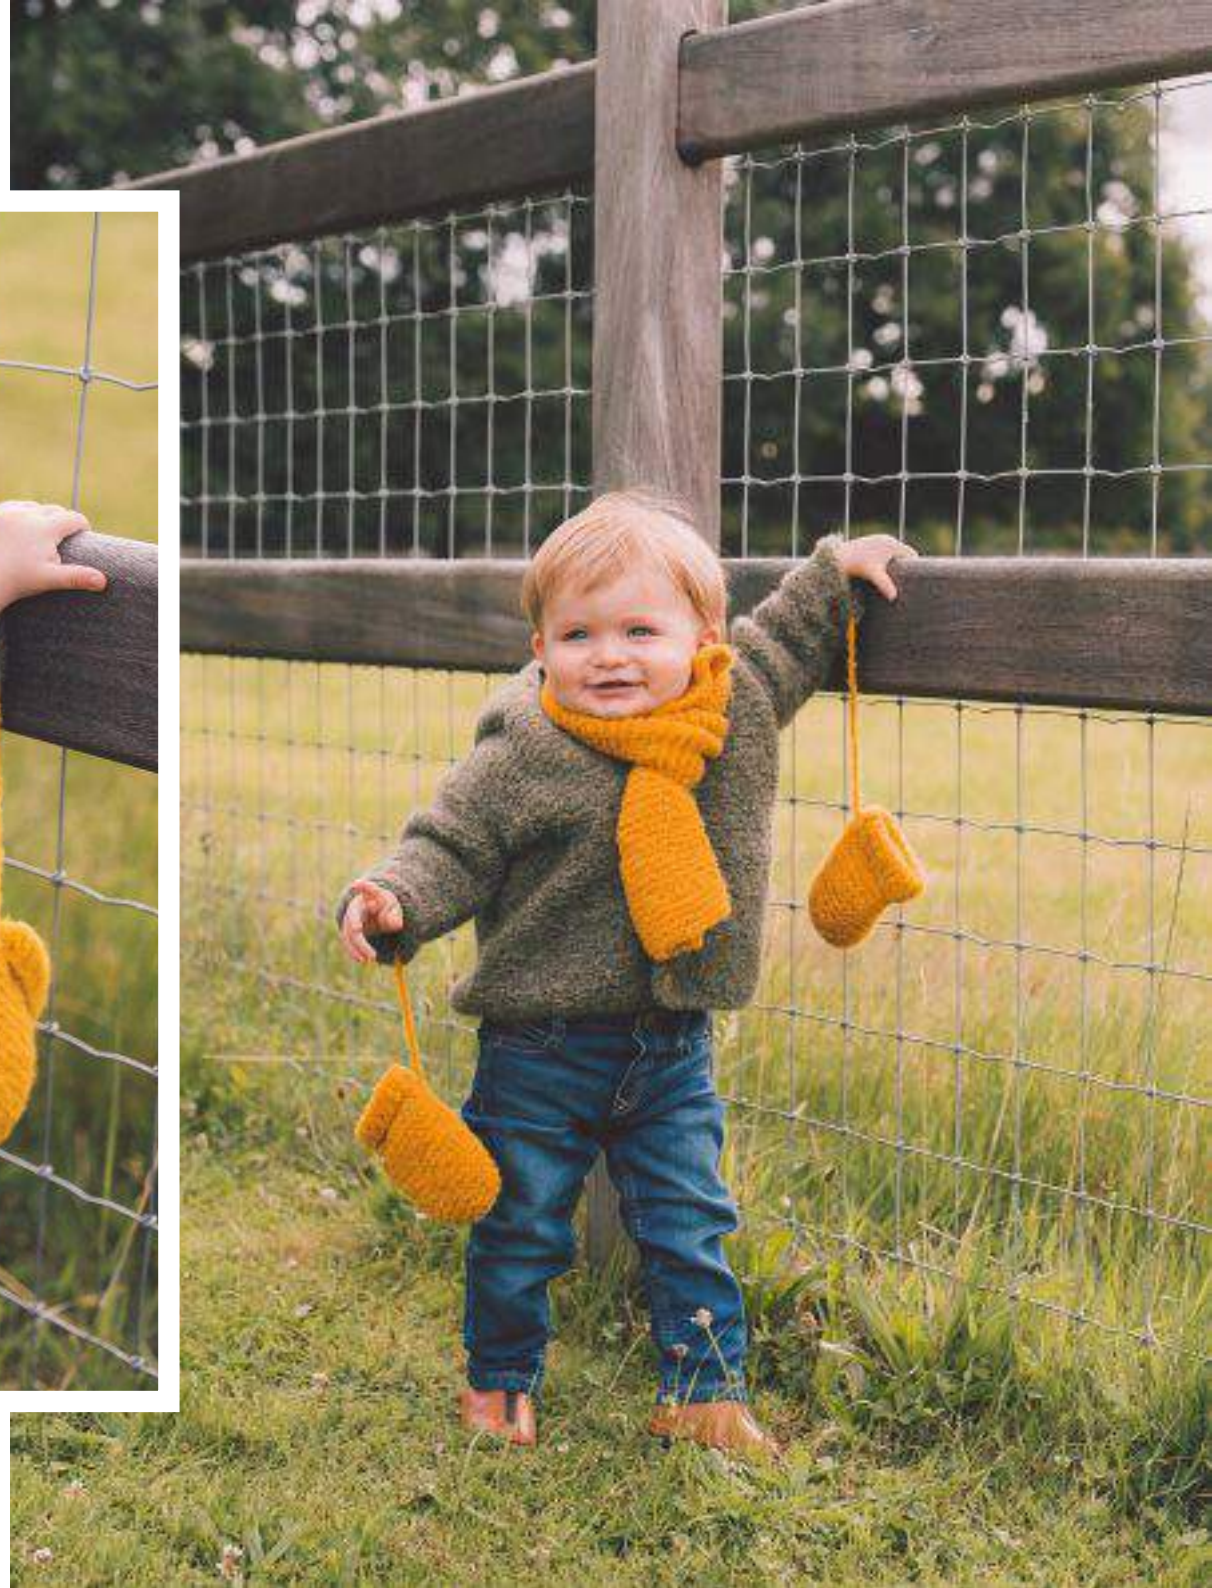

**Combining
esthetics
and ethics.**

“My life changed completely when I started working at Solids knitting workshop. I earned honestly and much more. I even could save money. I use this to pay for my children’s education. The oldest now studies at the university and the youngest is also doing well. I am happy now. My life is so much better thanks to my fair knitting job with Solid.”

- Herminia-

More about Solids fairtrade handknitting workshop in Peru

Solids knitting moms hand-knit for global fashion and home deco brands. We produce fashions and homewares that customers love, **high quality, delivered on time, hassle-free from yarn till delivery at your door.** We work with underprivileged women in the poor regions of the Andean highlands in Peru, providing the education and training they need to become world-class handknitters.

They are united by Solid in fair workshops and community groups that provide **meaningful and decent work** for those vulnerable, underprivileged yet powerful and strong women. They make beautiful handmade products that inspire both themselves and us to dream of a better world. **If you empower a woman, you empower the community.**

Solid is a **value and purpose driven honest business** with the United Nations' Global Goals for Sustainable Development entwined in our DNA. We are delivering on the UN's Goals of Gender Equality, Decent Work and Economic Growth, Reduce Inequalities, and Responsible Consumption and Production. Our handknitting workshop is **WFTO certified** which recognises our commitment to the highest standards of social and environmental performance.

Every day we hear stories of what the decent work and fair employment means to our artisans and their families. We see them blossoming into confident, strong women. Many of our artisans had never been to school. For many, working at Solids workshop is the first time they feel valued, and their self-esteem is growing.

Bringing these ladies together, away from their domestic often harsh and violent life has created a wonderful sisterhood. Our workshop is their safe place. This connection is an integral part of Solid which is **touching the hearts of brands and consumers around the world**. We are building a fair women's business which is handknitting the world together.

Find out more about Solids journey, the incredible growing sisterhood amongst the artisans, and how Solid is becoming a transformative force in the fashion and home decoration world.

Let's rise by lifting others.

All of Solid's lovely pieces have been completely handmade with love in a fair way by local Peruvian, Indian and Kenyan women from poor regions in the highlands, remote areas or wildlife regions.

We really appreciate your interest in our workshops and handcrafted fair-trade products. Whether we produce in India, Kenya or Peru, we strive to rise by lifting others, providing women a brighter future.

Let's talk ! Together, we are better.
